## PROFESSIONAL EXPERIENCE

**Tech Holding, Full Stack Developer**

Dec 2021 – Jan 2025 | Ahmedabad, India

**Skills - Node.js, React.js, Next.js, TypeScript, PostgreSQL, Lambda, SQS, SNS, CloudWatch, S3, Cognito**

- Designed and implemented an authentication flow with **session management** and **JWT** integration using **NextAuth**, ensuring secure and efficient user access control.
- Integrated **Apollo for GraphQL** to facilitate efficient data **querying** from the backend and separately implemented **Contentful Space** for managing content and applying **mutations**, enhancing overall application performance and content management.
- Enhanced the autocomplete functionality to efficiently display users within the same organization, leading to a **30% increase** in search speed.
- Developed a **dynamic project listing** feature for organizations, enabling real-time updates, deletions, and the creation of timelines, which increased planning efficiency by **40%** by ensuring consistently accurate and up-to-date project information.
- Designed and implemented an **authorization** flow for category management, tailored to different user roles. This ensured that users had appropriate access levels, **enhancing security** and operational efficiency.
- Developed an **Epic functionality inspired by Jira**, incorporating team differentiation to streamline task management and improve collaboration across teams.
- Developed a user interface for adding addresses during the order creation process, enhancing user experience and streamlining the checkout flow.
- Implemented queue management by pushing orders to **SQS**, streamlining order delivery processes and improving system efficiency.
- Strategically identified and resolved over **80 critical bugs**, significantly enhancing user experience and accelerating.

## EDUCATION

**MCA Faculty Of Computer Technology, GLS University**

2020 – 2022 | Ahmedabad

**BCA Faculty Of Computer Technology, GLS University**

2017 – 2020 | Ahmedabad

## TECHNICAL KNOWLEDGE

**Expert:** Node.js, React.js, Next.js, GraphQL, AWS, TypeScript, JavaScript, Express, Apollo Server, SQL, PostgreSQL, MongoDB, Docker, JWT, Rest Api, JQuery, Github, Git, Jira, HTML5, CSS

**Intermediate:** Java, Python

## PROJECTS

**Simple Plan** [🔗](#)

- This product is designed as a comprehensive tool for managing the entire project lifecycle, enhancing project planning, execution, and monitoring
- Implemented efficient task, resource, and timeline management features to improve team collaboration and streamline workflow visibility.

**ViaPromeds** [🔗](#)

- An online portal for consultancy and medicine management, designed to address health issues.
- Developed an interactive questionnaire flow to capture user symptoms and deliver personalized medical recommendations.
- Implemented a secure online consultation module enabling users to connect with certified professionals and access tailored treatment plans.
- Integrated subscription tiers and a secure payment system to enable seamless access to premium health consultation services.

**HubMd (Project Wisehealth)**

- Implemented a scheduled data-ingestion workflow using cron jobs and cloud functions to fetch data from an external system.

- Performed data mapping, transformation, and validation to convert raw input into the required structured format before inserting it into the database.

#### **HomeTown | Event Management Tool**

- Implemented search and sort functionality for school events to improve event accessibility.
- Built UI components to display current running events in a clear and user-friendly format.

#### **Saksham - I Am Capable, Side Project**

- Developed Inclusive Digital Platform for Students with Disabilities
- Built a booking flow that allows students to request and schedule writers based on availability, similar to ride-hailing apps.
- Implemented real-time status updates and a user-friendly interface to ensure seamless coordination between students and writers.

### **CERTIFICATES & AWARDS**

---

**AWS Certified Solution Architect**, *Amazon Web Services*

**Awarded 1st Prize at National Level Tech Fest**, *GLS University*

**Finalist in Google's Startup Weekend Ahmedabad**, *Google*

**Recipient of Special Recognition Award at Hackathon**, *Global Work Force Management And Shanti Business School*
